Special Items

PARTITIONS

Extra charge where not included in listed prices.

Cut solid.....	\$53.00
Rabbeted and cemented.....	26.50

DRAIN PIPE

Extra charge where not included in listed prices.

Drilling for pipe.....	\$11.00
Pipe (from bowl to bottom).....	9.00

DOWELING AND CEMENTING

Plain designs similar to designs 3811-5865, etc. \$6.50

DOWEL PINS

Aluminum, brass, copper or composition dowel pins should always be used to set marble work to avoid rust. Galvanized iron should not be used.

SWIVELS

For pedestals similar to design 5870..... \$11.00

ALUMINUM BASINS

9 inches in diameter.....each	\$2.50
7 inches in diameter.....each	2.00

Varieties of Marble Not Listed

For convenience we have listed designs only in White Rutland. We are prepared to supply this work in other marbles if so desired. Prices will be quoted on application.

Orders and Estimates

In sending orders, please be sure to give design number, size and kind of marble. If partition, drain pipe or swivel, etc., are wanted, be sure to specify. Orders cannot be canceled after work has begun.

Estimates on special designs will be furnished promptly. Our Designing Department will, if desired, make up such designs along any lines suggested. Details for lettering, however, are charged extra according to time required to execute.

Quotations on altars illustrated in the catalog or on other altar designs will be furnished upon request.

Terms of Sale

All prices include boxing and are F.O.B. our works in Vermont.

Terms: Net cash within 30 days from date of invoice.

The delivery of goods to the transportation company and the procuring of their shipping receipt therefor shall be considered a delivery to the purchaser.

Unless otherwise directed all marble will be shipped by the cheapest route, and subject to the official freight classification.

In case of damage the delivering freight agent must certify to the damage, on the original freight bill, before the goods are removed from the freight station. If this is not done, no collection can be made from the transportation company.

Weights listed herein are estimated weights.

This price list supersedes all previous issues.

Care and Cleaning of Fonts

Polished marble should be cleaned weekly, or at least once each month. Grease, dirt and dust will collect on the surface and if not removed will result in a cloudy film and cause discoloration. Water alone will not re-

move this accumulation. It is necessary to use a mild alkali in the water to remove the film and prevent this discoloration. We strongly recommend as one of the best materials for this purpose Wyandotte Sanitary Cleaner and Cleanser. It contains no grease product, lye or other corrosive fillers; it rinses freely and does not leave a greasy or slippery film to catch and hold the dirt. One heaping tablespoon of this cleaner to a pail of lukewarm water will clean the surface effectively without injury to the polish. Polished marble should be wiped dry after washing and then rubbed vigorously with a soft woolen cloth, cheese cloth, white cotton waste or chamois skin. This prevents streaks which might be left from the dirt in the wash water.

Never use an acid on marble. Neither should soaps, soft soaps, soap powders, scouring bricks nor harsh abrasives be employed as they are often of a caustic nature and may contain impurities which bring about discoloration.

The best method for removing stains and discoloration that come from long neglect is with a poultice made from Wyandotte Detergent. Write us for detailed instructions for applying poultice.

Small oil stains, usually a light yellow color, can be removed without difficulty by applying Vermont 50-50 Liquid Cleaner. Saturate cotton waste or white blotting paper and apply to stain. Allow it to remain for a day or two if necessary.

Discolorations from lumber, wood floors, excelsior, leaves or anything of an organic nature are readily removed with the poultice method. These stains are usually pink or reddish brown in color. Javelle water alone may be applied on white blotting paper, wetting repeatedly until the discoloration disappears.

Holy water fonts containing a weak salt solution should be emptied and thoroughly cleaned often. If this is done, the salt water will not injure the fine finish of the marble. A concentrated salt solution, however, may tend to roughen the polish.
